Dear Parents/Guardians & Students,

Starting Monday, March 1st, the Bristol Borough School District will provide 5-day live instruction for all middle and high school students who are currently participating in the hybrid model. Only students who participate in the hybrid model at the high school or middle school are eligible to return to full live instruction at this time. Any parent who currently has a child enrolled in the full virtual program at the high school or middle school will have the option to switch their child to the new live model at the end of the third quarter.

Students will participate in four full days of instruction Monday through Thursday, and a half day of live instruction on Friday, with asynchronous activities in the afternoon. Lunches on Friday will be grab-and-go as students leave the building.

The health and safety of our school community is our primary concern. The schedule and protocols that we have in place will allow our students to maintain a 6-foot social distance at all times while in the building. Although we do not anticipate that maintaining a 6-foot social distance will be a problem in any classroom based on the number of students currently enrolled in the hybrid program, we have an overspill room set up in case there is an issue. In such a case, students will be assigned to the overspill room on a rotating basis for a class period before returning to instruction with their normal class. We will also utilize both the cafeteria and the gym for lunches so students can be socially distanced while eating. Be assured, all of the other protocols outlined in our Health and Safety Plan will be followed. If you have any questions or concerns, please call the District.

On a separate note, if your child is having an issue with a Chromebook or connection, please fill out the form on the District's website. Your problem will be addressed within one business day.

Warm Regards,

Rose Minniti
