Singers at Sea

Read.

Did you know that some whales can sing? Some humpback whales make sounds that are like songs. They moan and grunt and squeak. A whale might sing for twenty minutes. Some whale songs can be heard miles away. Not all humpback whales sing. Only the male whales sing. They sing mostly in the winter. No one knows for sure why they sing. Some people think singing is their way to talk to other whales. Many people like to hear the songs. They think they are pretty!

Circle **True** or **False**.

Penguins

Penguins are birds with black and white feathers. They have wings, but they can not fly. Instead, they spend most of their time gliding and soaring underwater! When they are on land, they waddle back and forth. A group of penguins that lives together is called a colony.

Penguins live near salt water, so that is what they drink. They have a special gland in their bodies that pushes the salt out of their beaks! Penguins find their food in the water too: fish, shrimp, and krill.

Penguins need to watch out for several predators. Some animals that eat penguins are leopard seals, sea lions, and orcas (killer whales).

Most people think about penguins living in very cold places like Antarctica, but they also live on the coasts of South America, Africa, Australia, and the Galapagos Islands.

--	--	--

How are penguins different than other birds?

What do penguins eat?

What is a group of penguins called?

Would you like to have a penguin for a pet? Why or why not?

Make an inference. What do you think predator means?

Circle words or phrases in the passage that gave you a clue.

Name: _____

Tom is a black cat. He lives in a house. He drinks milk and eats cat food. His master gives him fish sometimes. After each meal he licks himself to clean his fur. Tom is a little cat, and his master calls him kitten. Tom loves to play with a ball of yarn. He pretends to see a rat, and he runs to catch it. He meows when he is hungry and purrs when he feels happy. Tom is a happy cat and he purrs a lot.
